Forecast For Northeast England
Issued by Met Office Exeter
at 0400 on Friday 02 Jul 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Some heavy showers developing on Friday, before dying away overnight.

Today:
Often rather cloudy, although some bright spells will develop as well. Scattered outbreaks of rain at first will give way to some heavy afternoon showers, which may be locally thundery. These showers then gradually dying away through the evening. Maximum temperature 18 deg C (64 deg F).

Tonight:
Variable cloud overnight with some clear spells, and most places becoming dry. Patchy low cloud developing in places. Winds will be light. Minimum temperature 11 deg C (52 deg F).

Saturday:
Dry at first but showers developing through the day, again becoming heavy and thundery in places. Feeling rather warm and humid. Maximum temperature 20 deg C (68 deg F).

Outlook for Sunday to Tuesday:
Rather warm Sunday, with bright or sunny spells but also some heavy, locally thundery showers developing. Bright with less showers on Monday. Overnight rain, then showers Tuesday. Cooler, strong winds.
